Healing Stone Massage

Mondays, 10:30am - 3:30pm · \$75 for one hour

Healing Stone Massage combines both hot basalt stones and chakra stones. The hot stones deliver deep warmth and comfort to release muscle tightness and improve circulation. While calming the mind, they create an opening for the healing properties of the Chakra stones. An individual may then deepen into a greater experience of themselves as they truly are, bringing a sense of aliveness and well being.

**Please make your appointment by phone or at the front desk.
Massages will be offered in the privacy of our classroom.*
